

HOW TO MEASURE

HOW TO MEASURE SASH OPENING VERTICAL SECTION

- To Determine Sash Opening Width, Measure Dimension "A"
- To Determine Sash Opening Height, Measure Dimension "B"
- To Determine Sill Angle (Bevel) Subtract Short Dimension From Long Dimension
- To Determine Storm Sash Width, measure Dimension "C"
- To Determine Storm Sash Opening Height, Measure Dimension "D"
- To Determine Storm Sash Sill Angle (Bevel) Subtract Short Dimension from Dimension "D"
