

Reaves Chapel

Tru-divided lite, Single-hung windows with
Pentoid (triangle) tops and raised panel doors

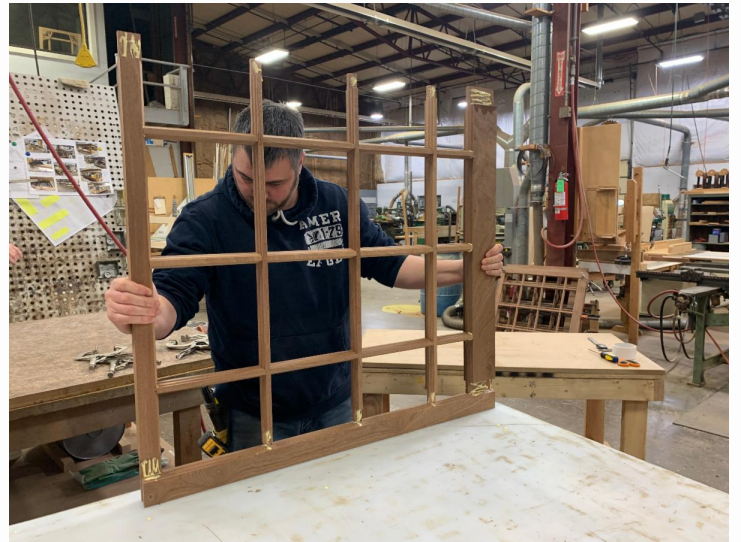

The origins of the Reaves Chapel in Navassa, North Carolina, date back to the Civil War. Formerly enslaved individuals built the African Methodist Episcopal church as a beacon of freedom amidst a time of oppression. Members of the community would gather to worship and socialize, with the church's bell acting as the invitation to congregate. A plan to restore this staple of Navassa's rich history to its former glory was set in motion, and Adams Architectural Millwork received the honor of playing a role in bringing it back to life through the fabrication of several unique windows.

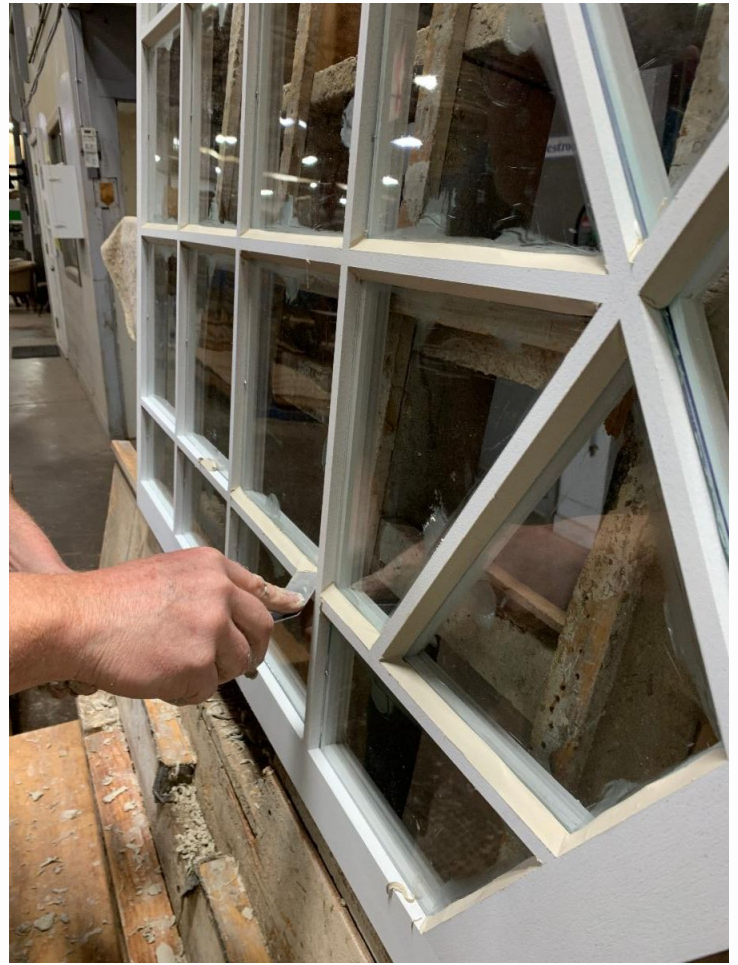

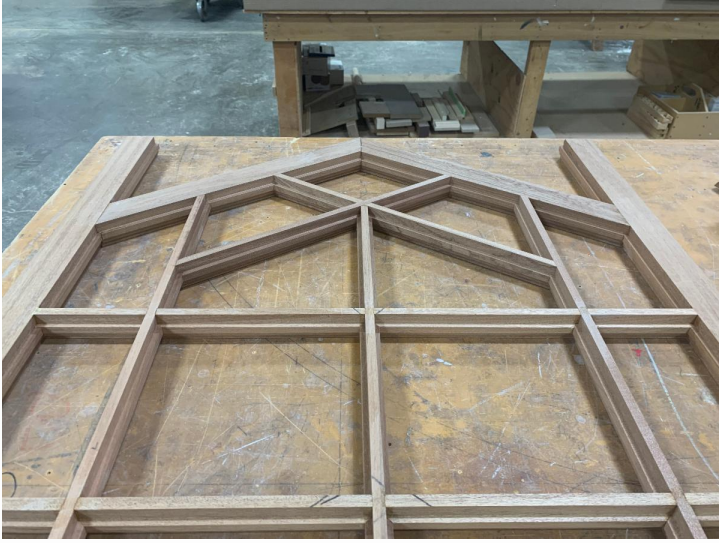

Brand New Windows for a 19th Century Church

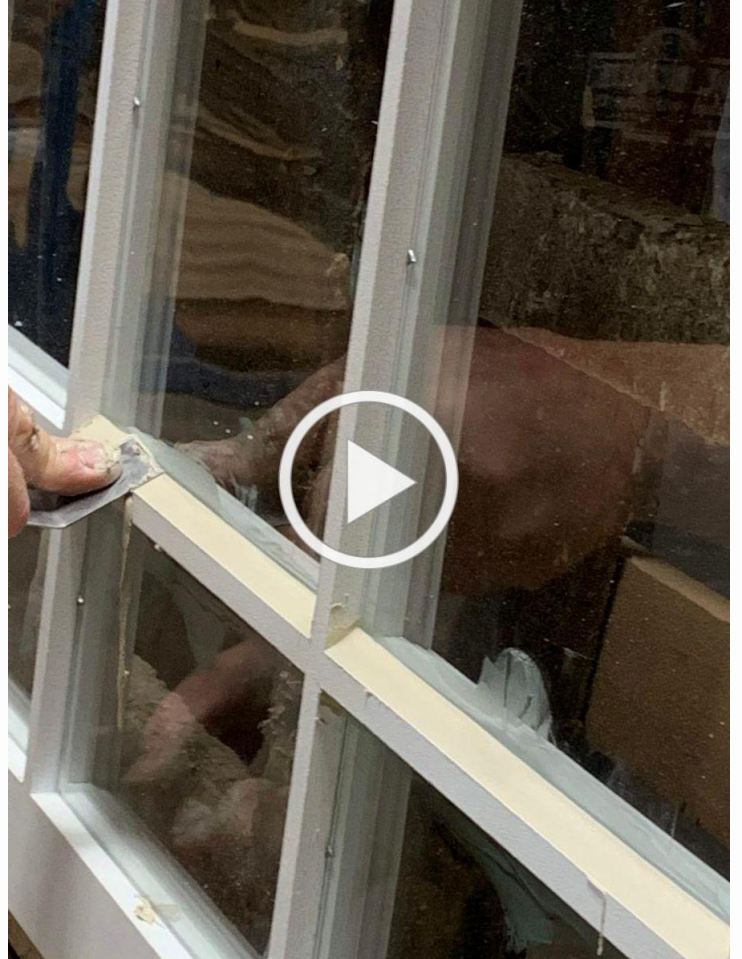

Recently, we had the opportunity to fabricate six single-hung windows with triangle tops and four raised panel doors for the Reaves Chapel. Each unit was fabricated from Mahogany, and the windows featured tru-divided lites with putty glazing to match their stained-glass counterparts on the front of the church. We sought to preserve the original aesthetic of the historic church.

Fabrication Process

Finished Product

Below are some images of these custom windows and doors following their completion:

Your Next Step...Request a Quote

There are three different ways you can request an estimate for a new or replacement storm window:

1. Use our custom quote form: [Storm Window Custom Quote Form](#)
2. Complete the [Storm Window Measurement Form](#) and email it to us
3. Send an email with measurement information (width x height) and the type(s) of storm window you would like quoted to info@adamsarch.com

Our capabilities include manufacturing custom millwork for homes and buildings across the United States. We can fabricate products that most large window and door companies will refuse.

Please give us a call at 1.888.285.8120 or visit our website at www.adamsarch.com and get your transformation started today.
