

## Wyatt Earp House

Double-Hung True Divided Lite Windows

Wyatt Earp | Pella Historical

The Wyatt Earp House in Pella, Iowa, is the childhood home of notorious lawman, gunslinger, and gambler Wyatt Earp. Earp was born in Monmouth, Illinois, in 1848 before relocating to Pella, Iowa, with his parents and seven siblings in 1849. In a bottom-floor apartment in this building, Wyatt spent his early childhood watching his father, Nicholas, serve as the city marshal before eventually relocating to Tombstone, Arizona. In 2020, Adams Architectural Millwork received the opportunity to assist in renovating this landmark building by providing historically accurate double-hung windows before its grand reopening in 2021.

### Before Picture

With the intent to reopen as a historical experience, the Pella Historical Society wanted to renovate the original building—an 18th-century Dutch-style building on the National Register of Historic Places—named Van Spanckeren Row House to keep it as accurate as possible while upgrading the visual quality of the experience. Our windows sought to keep this vision alive by replicating the windows with true-divided lites and including an upgrade of insulated glass in the same style while fabricating the sash from Mahogany to allow them to be more resistant to the elements.

## Fabrication Process

When we begin the process of fabricating any project, creating approval drawings is our starting point. These drawings show the exact dimensions and details of the entire job as it will be made in our shop. The approval drawing provides the customer with an idea of what to expect while giving the shop a guide to making a concept come to life!

We used a tinted primer on the sashes to assist the contractor with bringing out a dark green color when painted on the work site.

# Finished Product Images

Some of the finished product images that depict these gorgeous true divided lite windows are included below.

### Storm Windows

Our standard is to fabricate storm windows and storm doors from Northern White Pine, but we also use Mahogany for additional weatherability and durability. To retain the historic appeal of a home, a wood storm window is unmatched. We also offer modern comforts with styles that have inserts that can be changed from the interior of the house. The beauty of wood is in its versatility: you can stain a storm door to enhance the grain or paint to match your trim or house color.

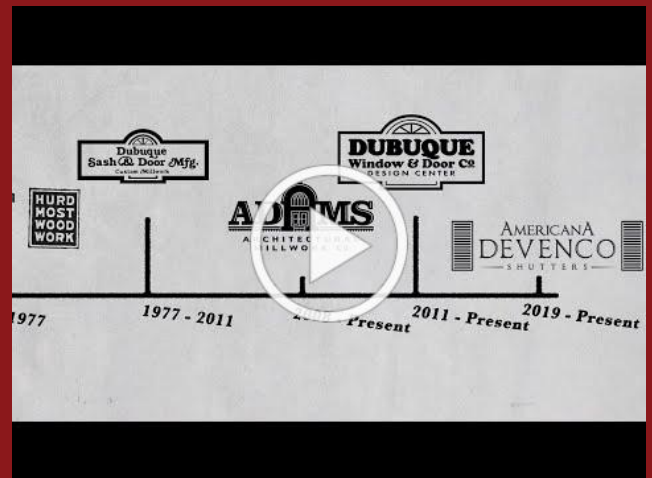

### Your Next Step...Request a Quote

There are three different ways you can request an estimate for a new or replacement storm window:

1. Use our custom quote form: [Storm Window Custom Quote Form](#)
2. Complete the [Storm Window Measurement Form](#) and email it to us
3. Send an email with measurement information (width x height) and the type(s) of storm window you would like quoted to [info@adamsarch.com](mailto:info@adamsarch.com)

Our capabilities include manufacturing custom millwork for homes and buildings across the United States. We can fabricate products that most large window and door companies will refuse.

Please give us a call at 1.888.285.8120 or visit our website at [www.adamsarch.com](http://www.adamsarch.com) and get your transformation started today.
