

Project Spotlight:

Large Bowed Window

Indianapolis, Indiana

From Curves to Craftsmanship

We were approached to replace an existing curved window with sidelites and create a single bowed window with divided lites to showcase a more cohesive configuration.

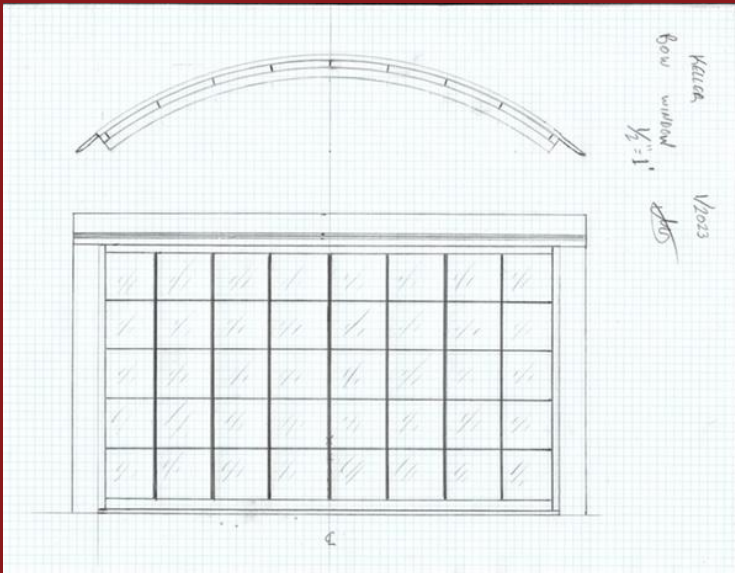

The new bowed window creates a stunning architectural focal point, expands the interior space, and provides beautiful panoramic views with timeless curb appeal.

Before Pictures

The existing window, which showcased bulky sidelights on either side of the bowed window.

Fabrication Process

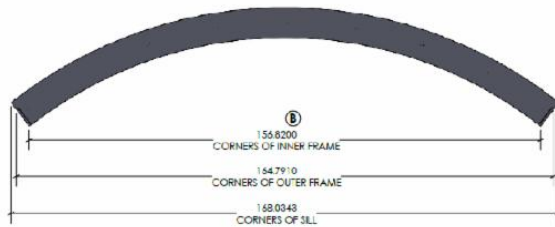

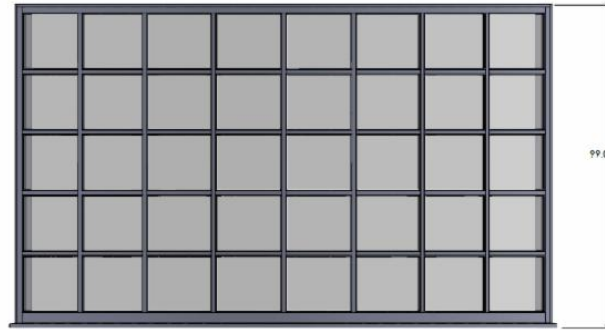

This window began its life as a pencil sketch, showing the profile of the curve and the impressive number of glass panes to be inserted into the frame.

Like our other work, the bowed window is meticulously measured and drawn up for fabrication.

NOTES

1. MATERIAL: MAHOGANY
2. SASH THICKNESS: 2.625"
3. FRAME THICKNESS: 1.25"
4. FRAME DEPTH: 6.5625"
5. STICKING: K&K
6. STOP: TRADITIONAL
7. GLASS: 1" INSULATED GLASS
8. WEATHERSTRIPPING: NO
9. FINISH: PRIMED (LATEX)

Assembly Process

Fabricated from Mahogany for its strength and weatherability, the design of the window incorporates flat glass panes. Each pane is held in place with a flat-backed rabbet to preserve the exterior curved profile.

Assembly Videos

Crating and Shipping

Due to the height of the window, we started with a pallet, installing the glass with the unit secured on it. We built the crate around the window when it was finished. A typical enclosed trailer was not an option for getting the finished product to our customer. We scheduled a flatbed truck who carefully secured the window to reach its final destination with no issues.

Your Next Step...Request a Quote

There are three different ways you can request an estimate for a new or replacement storm window:

1. Use our custom quote form: **Storm Window Custom Quote Form**
2. Complete the **Storm Window Measurement Form** and email it to us
3. Send an email with measurement information (width x height) and the type(s) of storm window you would like quoted to **info@adamsarch.com**

Our capabilities include manufacturing custom millwork for homes and buildings across the United States. We can fabricate products that most large window and door companies will refuse.

Please give us a call at 1.888.285.8120 or visit our website at www.adamsarch.com and get your transformation started today.
